

=====

Project Code: NUSP0001
Project Name: International COVID Surveys – Wave 2
Prepared for: Er Siew Ming and Tan Soo Jie Sheng, National University of Singapore
Interviews: 8400
Field Period: April 12, 2023 – May 17, 2023
Project Manager: Alexander Marsolais – alexander.marsolais@yougov.com

=====

YouGov interviewed following number of Internet Population respondents
in 7 countries:
1310 in Chile (CL)
1532 in Colombia (CO)
1272 in India (IN)
1316 in Kenya (KE)
1326 in Nigeria (NG)
1264 in Vietnam (VN)
1332 in South Africa (ZA)

For each country the sample was matched down to 1200 respondents respectively.
The respondents were matched to a sampling frame on gender, and age. These frames
were constructed by stratified sampling of the Latin American Public Opinion
Project 2021 (Colombia, Chile), the Pew Global Attitudes Survey 2017 (Vietnam),
the Pew Global Attitudes Survey 2019 (India), and the Afrobarometer survey 2019
(Kenya, Nigeria, South Africa).

The weights were then created by raking (iterative proportional fitting) gender,
and age (4-categories (NG,KE) or 5-categories (CL,CO,IN,VN,ZA)) to the
respective frame distributions, to produce the final weights.

=====

Variable List

=====

caseid	Panman Sample ID
weight	Int Pop Weight
wave	Wave
country_of_residence	Country of residence
language	Language of interview
birthyear	Birth year
age	Age
age_5cat	Age categories (5-cat)
age_4cat	Age categories (4-cat)
gender	Gender
education_cl	(CL) Education
education_co	(CO) Education
education_in	(IN) Education
education_ke	(KE) Education
education_ng	(NG) Education
education_vt	(VT) Education
education_za	(ZA) Education

Q1_4_order	Q1/Q2 order
Q1	How satisfied are you with your life as a whole these days?
Q2	Is your household currently able to make ends meet?
Q4	Was your household able to make ends meet immediately before the COVID-19 pandemic started?
W2_Q5	How important of a problem is climate change for COUNTRY
W2_Q5_3most_1	Which three of the following sources of information about climate change are you paying the most attention to: Newspapers
W2_Q5_3most_2	Which three of the following sources of information about climate change are you paying the most attention to: Television
W2_Q5_3most_3	Which three of the following sources of information about climate change are you paying the most attention to: Radio
W2_Q5_3most_4	Which three of the following sources of information about climate change are you paying the most attention to: Social media (e.g. Facebook)
W2_Q5_3most_5	Which three of the following sources of information about climate change are you paying the most attention to: Other internet sites
W2_Q5_3most_6	Which three of the following sources of information about climate change are you paying the most attention to: Family members
W2_Q5_3most_7	Which three of the following sources of information about climate change are you paying the most attention to: Friends & neighbors
W2_Q5_3most_9	Which three of the following sources of information about climate change are you paying the most attention to: Scientists
W2_Q5_3most_10	Which three of the following sources of information about climate change are you paying the most attention to: Religious leaders
W2_Q5_3most_11	Which three of the following sources of information about climate change are you paying the most attention to: NGOs
W2_Q5_3most_12	Which three of the following sources of

	information about climate change are you paying the most attention to: National Government
W2_Q5_3most_13	Which three of the following sources of information about climate change are you paying the most attention to: Local Government
W2_Q5_3least_1	Which three of the following sources of information about climate change are you paying the least attention to: Newspapers
W2_Q5_3least_2	Which three of the following sources of information about climate change are you paying the least attention to: Television
W2_Q5_3least_3	Which three of the following sources of information about climate change are you paying the least attention to: Radio
W2_Q5_3least_4	Which three of the following sources of information about climate change are you paying the least attention to: Social media (e.g. Facebook)
W2_Q5_3least_5	Which three of the following sources of information about climate change are you paying the least attention to: Other internet sites
W2_Q5_3least_6	Which three of the following sources of information about climate change are you paying the least attention to: Family members
W2_Q5_3least_7	Which three of the following sources of information about climate change are you paying the least attention to: Friends & neighbors
W2_Q5_3least_9	Which three of the following sources of information about climate change are you paying the least attention to: Scientists
W2_Q5_3least_10	Which three of the following sources of information about climate change are you paying the least attention to: Religious leaders
W2_Q5_3least_11	Which three of the following sources of information about climate change are you paying the least attention to: NGOs
W2_Q5_3least_12	Which three of the following sources of information about climate change are you paying the least attention to: National Government
W2_Q5_3least_13	Which three of the following sources of information about climate change are you paying the least attention to: Local Government
W2_Q6_3most_1	Check the three source of climate information that you have the most trust in: Newspapers
W2_Q6_3most_2	Check the three source of climate information that you have the most trust in: Television
W2_Q6_3most_3	Check the three source of climate information that you have the most trust in: Radio
W2_Q6_3most_4	Check the three source of climate information that you have the most trust in: Social media (e.g. Facebook)

W2_Q6_3most_5	Check the three source of climate information that you have the most trust in: Other internet sites
W2_Q6_3most_9	Check the three source of climate information that you have the most trust in: Religious leaders
W2_Q6_3most_10	Check the three source of climate information that you have the most trust in: NGOs
W2_Q6_3most_11	Check the three source of climate information that you have the most trust in: Family members
W2_Q6_3most_12	Check the three source of climate information that you have the most trust in: Friends & neighbors
W2_Q6_3most_13	Check the three source of climate information that you have the most trust in: Scientists
W2_Q6_3most_14	Check the three source of climate information that you have the most trust in: National government
W2_Q6_3most_15	Check the three source of climate information that you have the most trust in: Local government
W2_Q6_3least_1	Check the three source of climate information that you have the least trust in: Newspapers
W2_Q6_3least_2	Check the three source of climate information that you have the least trust in: Television
W2_Q6_3least_3	Check the three source of climate information that you have the least trust in: Radio
W2_Q6_3least_4	Check the three source of climate information that you have the least trust in: Social media (e.g. Facebook)
W2_Q6_3least_5	Check the three source of climate information that you have the least trust in: Other internet sites
W2_Q6_3least_9	Check the three source of climate information that you have the least trust in: Religious leaders
W2_Q6_3least_10	Check the three source of climate information that you have the least trust in: NGOs
W2_Q6_3least_11	Check the three source of climate information that you have the least trust in: Family members
W2_Q6_3least_12	Check the three source of climate information that you have the least trust in: Friends & neighbors
W2_Q6_3least_13	Check the three source of climate information that you have the least trust in: Scientists
W2_Q6_3least_14	Check the three source of climate information that you have the least trust in: National government
W2_Q6_3least_15	Check the three source of climate information that you have the least trust in: Local government
Q7c_1	Which of these actions, if any, have you or your

	household performed since the COVID-19 pandemic began: Reduced contact with people outside my household
Q7c_5	Which of these actions, if any, have you or your household performed since the COVID-19 pandemic began: Reduced going to restaurants
Q7c_8	Which of these actions, if any, have you or your household performed since the COVID-19 pandemic began: Reduced taking public transportation
Q7c_12	Which of these actions, if any, have you or your household performed since the COVID-19 pandemic began: Usually wear a facemask when I go outside my home
Q7c_21	Which of these actions, if any, have you or your household performed since the COVID-19 pandemic began: I haven't taken any of these actions in response to COVID-19
Q12	How many other people are living in household
Q12a	How many of these household members are in school?
Q12b	How many of these household members are children below 16 years?
Q12c	How many household members, including yourself, are 60 years of age or older?
Q13	Are any of these household members (including yourself) at high risk of becoming seriously ill or dying if they get COVID?
Q14_1	Has anyone in your household (including yourself): thought they were exposed to COVID-19?
Q14_2	Has anyone in your household (including yourself): been tested for COVID-19
Q14_3	Has anyone in your household (including yourself): tested positive for COVID-19
Q14_4	Has anyone in your household (including yourself): been sick from COVID-19
Q14_5	Has anyone in your household (including yourself): been hospitalized from COVID-19
Q14_6	Has anyone in your household (including yourself): died from COVID-19
Q15	How many members in your household have been sick from COVID-19?
Q16	Have you been sick from COVID-19?
Q17	Have you been tested for COVID-19?
Q19	How easy do you think it is now for someone in your community to be tested to check if they are currently infected with COVID-19?
W2_Q22_1	Agree/Disagree: Burning oil produces CO2.
W2_Q22_2	Agree/Disagree: Carbon Dioxide (CO2) is harmful to plants.
W2_Q22_3	Agree/Disagree: Nuclear power plants emit CO2 during operations.

W2_Q22_4	Agree/Disagree: The same quantity of CO2 is more harmful to the climate than methane (natural) gas.
W2_Q22_5	Agree/Disagree: The global CO2 concentration in the atmosphere has increased during the past 250 years.
W2_Q22_6	Agree/Disagree: Climate change is mainly caused by human activities.
W2_Q22_7	Agree/Disagree: The last century's global increase in temperature was the largest in the past 1,000 years.
W2_Q22_8	Agree/Disagree: Today's global CO2 concentration in the atmosphere has already occurred the past 650,000 years.
W2_Q22_9	Agree/Disagree: A warmer climate to increase the melting of polar ice, which will lead to an overall rise of the sea level.
W2_Q22_10	Agree/Disagree: An increase in extreme events such as droughts, floods and storms.
W2_Q22_11	Agree/Disagree: A warmer climate will increase water evaporation, which will lead to an overall decrease of the sea level.
W2_Q22_12	Agree/Disagree: The climate to change evenly all of the world.
Q23a_1	Most/Least serious: Malaria
Q23a_2	Most/Least serious: HIV/AIDS
Q23a_3	Most/Least serious: Water borne diseases like diarrhea
Q23a_4	Most/Least serious: Lung cancer and respiratory diseases caused by air pollution and smoking
Q23a_5	Most/Least serious: Alcoholism and drug use
Q23a_6	Most/Least serious: Tuberculosis
Q23a_7	Most/Least serious: COVID-19
Q23b_1	2nd Most/Least serious: Malaria
Q23b_2	2nd Most/Least serious: HIV/AIDS
Q23b_3	2nd Most/Least serious: Water borne diseases like diarrhea
Q23b_4	2nd Most/Least serious: Lung cancer and respiratory diseases caused by air pollution and smoking
Q23b_5	2nd Most/Least serious: Alcoholism and drug use
Q23b_6	2nd Most/Least serious: Tuberculosis
Q23b_7	2nd Most/Least serious: COVID-19
Q23c_1	3rd Most/Least serious: Malaria
Q23c_2	3rd Most/Least serious: HIV/AIDS
Q23c_3	3rd Most/Least serious: Water borne diseases like diarrhea
Q23c_4	3rd Most/Least serious: Lung cancer and respiratory diseases caused by air pollution and smoking
Q23c_5	3rd Most/Least serious: Alcoholism and drug use

Q23c_6	3rd Most/Least serious: Tuberculosis
Q23c_7	3rd Most/Least serious: COVID-19
Q26	Preference for government action
W2_Q27a	Over the next decade, do you think it will be more difficult for people in COUNTRY to deal with hotter temperatures or extreme weather events like cyclones, droughts, floods, and wildfires?
W2_Q28	Which of these two statements do you most agree with: Government spending re: climate change
Q29	Mandatory vaccination for travel
Q30_31_treatment	Q30/Q31 Version
Q30v1	(Version 1) Over the next 12 months, what do you think the chances are that you yourself will become infected with COVID-19?
Q30v2	(Version 2) Over the next 12 months, what do you think the chances are that you yourself will become infected with COVID-19?
Q30v3	(Version 3) Over the next 12 months, what do you think the chances are that you yourself will become infected with COVID-19?
W2_Q31v1	(Version 1) What do you think the chances of the average annual temperature in COUNTRY increasing by 3C° or more in the year 2100 is?
W2_Q31v2	(Version 2) What do you think the chances of the average annual temperature in COUNTRY increasing by 3C° or more in the year 2100 is?
W2_Q31v3	(Version 3) What do you think the chances of the average annual temperature in COUNTRY increasing by 3C° or more in the year 2100 is?
W2_Q32v1	(Version 1) Fraction of automobiles operating on electric in 2050?
W2_Q32v2	(Version 2) Fraction of automobiles operating on electric in 2050?
W2_Q32v3	(Version 3) Fraction of automobiles operating on electric in 2050?
Q34	Which of these best describes your situation with respect to getting vaccinated against COVID-19?
Q37_3most_1	Three most important priorities for government: Increasing employment
Q37_3most_2	Three most important priorities for government: Addressing climate change
Q37_3most_3	Three most important priorities for government: Getting COVID-19 under control
Q37_3most_4	Three most important priorities for government: Decreasing poverty
Q37_3most_5	Three most important priorities for government: Decreasing political corruption
Q37_3most_6	Three most important priorities for government: Decreasing crime
Q37_3most_7	Three most important priorities for government: Improving access to food supplies

Q37_3most_8	Three most important priorities for government: Improving healthcare services
Q37_3most_9	Three most important priorities for government: Improving public transport
Q37_3most_10	Three most important priorities for government: Improving access to credit
Q37_3most_11	Three most important priorities for government: Improving education
Q37_3most_12	Three most important priorities for government: Improving access to water and sanitation
Q37_3most_13	Three most important priorities for government: Improving access to electricity
Q37_3least_1	Three least important priorities for government: Increasing employment
Q37_3least_2	Three least important priorities for government: Addressing climate change
Q37_3least_3	Three least important priorities for government: Getting COVID-19 under control
Q37_3least_4	Three least important priorities for government: Decreasing poverty
Q37_3least_5	Three least important priorities for government: Decreasing political corruption
Q37_3least_6	Three least important priorities for government: Decreasing crime
Q37_3least_7	Three least important priorities for government: Improving access to food supplies
Q37_3least_8	Three least important priorities for government: Improving healthcare services
Q37_3least_9	Three least important priorities for government: Improving public transport
Q37_3least_10	Three least important priorities for government: Improving access to credit
Q37_3least_11	Three least important priorities for government: Improving education
Q37_3least_12	Three least important priorities for government: Improving access to water and sanitation
Q37_3least_13	Three least important priorities for government: Improving access to electricity
Q39_1	In the long term, climate change is a more serious crisis than COVID-19.
Q39_2	In the planning for economic recovery after Covid-19, the government should prioritize actions that also help to deal with climate change
Q39_3	Government should focus on helping the economy to recover first and foremost, even if that means taking some actions that are bad for the environment
W2_Q40_1	Familiarity: Cap and trade
W2_Q40_2	Familiarity: Carbon tax
W2_Q40_3	Familiarity: Ecosystem services payment

W2_Q40_4	Familiarity: Negative externality
W2_Q40_5	Familiarity: Revenue neutral tax
W2_Q40_6	Familiarity: Tax rebate
W2_Q40_7	Familiarity: Technology standard
W2_Q41_co	Which of these represents your best guess as to how large the tax part of the price per liter of gasoline in Colombia is?
W2_Q41_in	Which of these represents your best guess as to how large the tax part of the price per liter of gasoline in India is?
W2_Q41_ke	Which of these represents your best guess as to how large the tax part of the price per liter of gasoline in Kenya is?
W2_Q41_ng	Which of these represents your best guess as to how large the tax part of the price per liter of gasoline in Nigeria is?
W2_Q41_za	Which of these represents your best guess as to how large the tax part of the price per liter of gasoline in South Africa is?
W2_Q41_vn	Which of these represents your best guess as to how large the tax part of the price per liter of gasoline in Vietnam is?
W2_Q41_cl	Which of these represents your best guess as to how large the tax part of the price per liter of gasoline in Chile is?
W2_Q42a_1	Best/worst uses for taxes on motor-vehicle fuels: Expand road capacity by building new roads and adding new lanes
W2_Q42a_2	Best/worst uses for taxes on motor-vehicle fuels: Improve the condition of existing roads
W2_Q42a_3	Best/worst uses for taxes on motor-vehicle fuels: Reduce crowding on buses and trains by adding more frequent service
W2_Q42a_4	Best/worst uses for taxes on motor-vehicle fuels: Subsidize the cost of buying electric vehicles to help reduce air pollution
W2_Q42a_5	Best/worst uses for taxes on motor-vehicle fuels: Reduce the cost of bus and train tickets to encourage more people to use
W2_Q42a_6	Best/worst uses for taxes on motor-vehicle fuels: Reduce pollution from buses by running them on cleaner fuels and electricity
W2_Q42a_7	Best/worst uses for taxes on motor-vehicle fuels: Expand the number of bus routes and build new train lines
W2_Q42b_1	2nd Best/worst uses for taxes on motor-vehicle fuels: Expand road capacity by building new roads and adding new lanes
W2_Q42b_2	2nd Best/worst uses for taxes on motor-vehicle fuels: Improve the condition of existing roads
W2_Q42b_3	2nd Best/worst uses for taxes on motor-vehicle

	fuels: Reduce crowding on buses and trains by adding more frequent service
W2_Q42b_4	2nd Best/worst uses for taxes on motor-vehicle fuels: Subsidize the cost of buying electric vehicles to help reduce air pollution
W2_Q42b_5	2nd Best/worst uses for taxes on motor-vehicle fuels: Reduce the cost of bus and train tickets to encourage more people to use
W2_Q42b_6	2nd Best/worst uses for taxes on motor-vehicle fuels: Reduce pollution from buses by running them on cleaner fuels and electricity
W2_Q42b_7	2nd Best/worst uses for taxes on motor-vehicle fuels: Expand the number of bus routes and build new train lines
W2_Q42c_1	3rd Best/worst uses for taxes on motor-vehicle fuels: Expand road capacity by building new roads and adding new lanes
W2_Q42c_2	3rd Best/worst uses for taxes on motor-vehicle fuels: Improve the condition of existing roads
W2_Q42c_3	3rd Best/worst uses for taxes on motor-vehicle fuels: Reduce crowding on buses and trains by adding more frequent service
W2_Q42c_4	3rd Best/worst uses for taxes on motor-vehicle fuels: Subsidize the cost of buying electric vehicles to help reduce air pollution
W2_Q42c_5	3rd Best/worst uses for taxes on motor-vehicle fuels: Reduce the cost of bus and train tickets to encourage more people to use
W2_Q42c_6	3rd Best/worst uses for taxes on motor-vehicle fuels: Reduce pollution from buses by running them on cleaner fuels and electricity
W2_Q42c_7	3rd Best/worst uses for taxes on motor-vehicle fuels: Expand the number of bus routes and build new train lines
W2_Q43a_1	Best/worst uses for carbon taxes: Return the money collected to all citizens on an equal basis
W2_Q43a_2	Best/worst uses for carbon taxes: Return the money to the poorest 25% of households
W2_Q43a_3	Best/worst uses for carbon taxes: Use the money to improve education and healthcare
W2_Q43a_4	Best/worst uses for carbon taxes: Use the money for research and development on ways to reduce climate change
W2_Q43a_5	Best/worst uses for carbon taxes: Provide funding to small businesses and households to help reduce carbon emissions by putting up solar panels and replacing inefficient heaters and stoves
W2_Q43a_6	Best/worst uses for carbon taxes: Use the money to reduce the government's large budget deficit
W2_Q43a_7	Best/worst uses for carbon taxes: Use the money

	to expand and improve the road system
W2_Q43b_1	2nd Best/worst uses for carbon taxes: Return the money collected to all citizens on an equal basis
W2_Q43b_2	2nd Best/worst uses for carbon taxes: Return the money to the poorest 25% of households
W2_Q43b_3	2nd Best/worst uses for carbon taxes: Use the money to improve education and healthcare
W2_Q43b_4	2nd Best/worst uses for carbon taxes: Use the money for research and development on ways to reduce climate change
W2_Q43b_5	2nd Best/worst uses for carbon taxes: Provide funding to small businesses and households to help reduce carbon emissions by putting up solar panels and replacing inefficient heaters and stoves
W2_Q43b_6	2nd Best/worst uses for carbon taxes: Use the money to reduce the government's large budget deficit
W2_Q43b_7	2nd Best/worst uses for carbon taxes: Use the money to expand and improve the road system
W2_Q43c_1	3rd Best/worst uses for carbon taxes: Return the money collected to all citizens on an equal basis
W2_Q43c_2	3rd Best/worst uses for carbon taxes: Return the money to the poorest 25% of households
W2_Q43c_3	3rd Best/worst uses for carbon taxes: Use the money to improve education and healthcare
W2_Q43c_4	3rd Best/worst uses for carbon taxes: Use the money for research and development on ways to reduce climate change
W2_Q43c_5	3rd Best/worst uses for carbon taxes: Provide funding to small businesses and households to help reduce carbon emissions by putting up solar panels and replacing inefficient heaters and stoves
W2_Q43c_6	3rd Best/worst uses for carbon taxes: Use the money to reduce the government's large budget deficit
W2_Q43c_7	3rd Best/worst uses for carbon taxes: Use the money to expand and improve the road system
W2_Q43d_1	Support government using carbon taxes: Return the money collected to all citizens on an equal basis
W2_Q43d_2	Support government using carbon taxes: Return the money to the poorest 25% of households
W2_Q43d_3	Support government using carbon taxes: Use the money to improve education and healthcare
W2_Q43d_4	Support government using carbon taxes: Use the money for research and development on ways to reduce climate change
W2_Q43d_5	Support government using carbon taxes: Provide funding to small businesses and households to help reduce carbon emissions by putting up solar

	panels and replacing inefficient heaters and stoves
W2_Q43d_6	Support government using carbon taxes: Use the money to reduce the government's large budget deficit
W2_Q43d_7	Support government using carbon taxes: Use the money to expand and improve the road system
W2_Q44_version	W2_Q44 version
W2_Q44v1a_1	(Version 1) Most/Least view on climate change: Climate change is the most important longer term problem the world is facing.
W2_Q44v1a_2	(Version 1) Most/Least view on climate change: Climate change is a serious problem, but is only one of several the world faces.
W2_Q44v1a_3	(Version 1) Most/Least view on climate change: It may be pointless for my country to reduce how much carbon dioxide it emits because some of the biggest emitting countries will simply emit more.
W2_Q44v1a_4	(Version 1) Most/Least view on climate change: Rich countries should be forced to pay to reduce carbon dioxide emissions since they emitted most of carbon dioxide in the atmosphere today.
W2_Q44v1a_5	(Version 1) Most/Least view on climate change: There is too much corruption, big polluters and politically well-connected groups will continue to emit carbon dioxide, forcing the cost of damages on ordinary people.
W2_Q44v1a_6	(Version 1) Most/Least view on climate change: It is too late to do anything to stop climate change, but actions to prevent its worst impacts should be undertaken.
W2_Q44v1a_7	(Version 1) Most/Least view on climate change: The climate is always changing and burning fossil fuels is not responsible for this. Any spending to reduce carbon dioxide emissions is a waste of money.
W2_Q44v1b_1	(Version 1) 2nd Most/Least view on climate change: Climate change is the most important longer term problem the world is facing.
W2_Q44v1b_2	(Version 1) 2nd Most/Least view on climate change: Climate change is a serious problem, but is only one of several the world faces.
W2_Q44v1b_3	(Version 1) 2nd Most/Least view on climate change: It may be pointless for my country to reduce how much carbon dioxide it emits because some of the biggest emitting countries will simply emit more.
W2_Q44v1b_4	(Version 1) 2nd Most/Least view on climate change: Rich countries should be forced to pay to reduce carbon dioxide emissions since they emitted most of carbon dioxide in the atmosphere

	today.
W2_Q44v1b_5	(Version 1) 2nd Most/Least view on climate change: There is too much corruption, big polluters and politically well-connected groups will continue to emit carbon dioxide, forcing the cost of damages on ordinary people.
W2_Q44v1b_6	(Version 1) 2nd Most/Least view on climate change: It is too late to do anything to stop climate change, but actions to prevent its worst impacts should be undertaken.
W2_Q44v1b_7	(Version 1) 2nd Most/Least view on climate change: The climate is always changing and burning fossil fuels is not responsible for this. Any spending to reduce carbon dioxide emissions is a waste of money.
W2_Q44v1c_1	(Version 1) 3rd Most/Least view on climate change: Climate change is the most important longer term problem the world is facing.
W2_Q44v1c_2	(Version 1) 3rd Most/Least view on climate change: Climate change is a serious problem, but is only one of several the world faces.
W2_Q44v1c_3	(Version 1) 3rd Most/Least view on climate change: It may be pointless for my country to reduce how much carbon dioxide it emits because some of the biggest emitting countries will simply emit more.
W2_Q44v1c_4	(Version 1) 3rd Most/Least view on climate change: Rich countries should be forced to pay to reduce carbon dioxide emissions since they emitted most of carbon dioxide in the atmosphere today.
W2_Q44v1c_5	(Version 1) 3rd Most/Least view on climate change: There is too much corruption, big polluters and politically well-connected groups will continue to emit carbon dioxide, forcing the cost of damages on ordinary people.
W2_Q44v1c_6	(Version 1) 3rd Most/Least view on climate change: It is too late to do anything to stop climate change, but actions to prevent its worst impacts should be undertaken.
W2_Q44v1c_7	(Version 1) 3rd Most/Least view on climate change: The climate is always changing and burning fossil fuels is not responsible for this. Any spending to reduce carbon dioxide emissions is a waste of money.
W2_Q44v2a_1	(Version 2) Most/Least view on climate change: Climate change is the most important longer term problem the world is facing.
W2_Q44v2a_2	(Version 2) Most/Least view on climate change: Climate change is a serious problem, but is only one of several the world faces.

W2_Q44v2a_3	(Version 2) Most/Least view on climate change: It may be pointless for my country to reduce how much carbon dioxide it emits because some of the biggest emitting countries will simply emit more.
W2_Q44v2a_4	(Version 2) Most/Least view on climate change: It is not necessary to worry about climate change now because low cost ways of removing carbon dioxide that scientists are working on now will be available in the future.
W2_Q44v2a_5	(Version 2) Most/Least view on climate change: Lots of money should be spent on research and development projects to bring down the cost of renewable energy sources and to make buildings and vehicles more efficient.
W2_Q44v2a_6	(Version 2) Most/Least view on climate change: Many people will eventually need to be forced to replace their older high polluting motor vehicles for ones that run on clean energy sources.
W2_Q44v2a_7	(Version 2) Most/Least view on climate change: The climate is always changing and burning fossil fuels is not responsible for this. Any spending to reduce carbon dioxide emissions is a waste of money.
W2_Q44v2b_1	(Version 2) 2nd Most/Least view on climate change: Climate change is the most important longer term problem the world is facing.
W2_Q44v2b_2	(Version 2) 2nd Most/Least view on climate change: Climate change is a serious problem, but is only one of several the world faces.
W2_Q44v2b_3	(Version 2) 2nd Most/Least view on climate change: It may be pointless for my country to reduce how much carbon dioxide it emits because some of the biggest emitting countries will simply emit more.
W2_Q44v2b_4	(Version 2) 2nd Most/Least view on climate change: It is not necessary to worry about climate change now because low cost ways of removing carbon dioxide that scientists are working on now will be available in the future.
W2_Q44v2b_5	(Version 2) 2nd Most/Least view on climate change: Lots of money should be spent on research and development projects to bring down the cost of renewable energy sources and to make buildings and vehicles more efficient.
